## The Playfield

# 160

80

11

32

playfield:

```
.....XXXXXX..XXX.....  
.....X.....X.....  
....X.....  
....X.....X.....  
....X.....X.....  
....XXX.....X.....  
....X..XX.....X.....  
....X...XX...X.....  
....X.....X.X.....  
....XXXXXXX.....
```

end

ACTION

ACTION

## ACTION

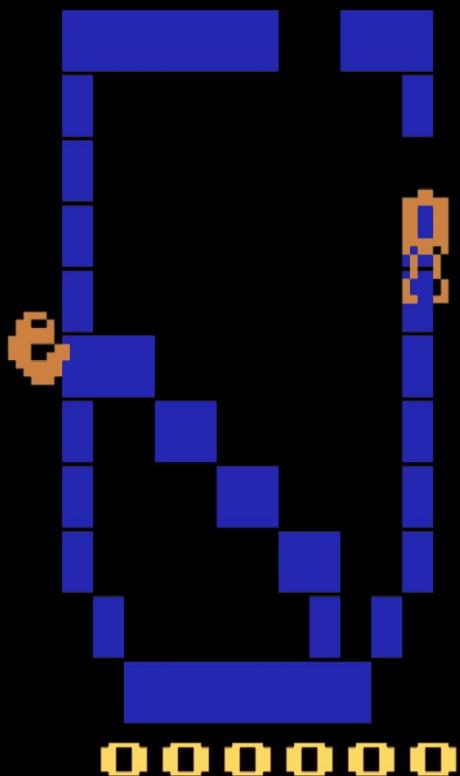

Create your own Playfield

- Play with the scrolling options:

- pfscroll left
- pfscroll right
- pfscroll up
- pfscroll down
- pfhline x y w on
- pfvline x y h on
- pfpixel x y on

```
a = (missile0x-8)/4
b = missile0y/8
if pfread(a,b) then pfpixel a b off
```

Stella 7.0: "08\_playfield.bas"

a  
b  
i

ACTION

## ACTION

- Can you make your playfield destructible?
- Can you increase your score each time you hit a block?
- Add Sprite animations to the Enemy as it moves
- Try to add some logic to make the enemy more 'interesting'
  - I.e. change the movement, or add another missile or both!

# ATARI WORKSHOP SCHEDULE
